I am the owner, or agent of the owner, of the above animal and have the authority to execute this consent. I hereby consent and authorize the performance of the above named procedure(s) or surgery(s). I also authorize the use of appropriate anesthetics, and other medications as deemed necessary by the veterinarian. I have been advised as to the nature of the procedure(s) or surgery(s) and the risks involved. I understand the above anesthetic and surgical, diagnostic or therapeutic procedures may involve risk of complications, injury or even death, from both known and unknown causes and no warranty or guarantee has been either expressed or implied as to result or cure.

I authorize and direct the veterinarians and/or their assistants to provide additional services for the patient as they may deem reasonable and necessary, including but not limited to: the administration of anesthesia; the performance of a surgery or procedure different from those set forth above; or the performance of services involving pathology, radiology, lab and/or other diagnostic testing. Furthermore, I authorize the hospital staff in an emergency situation, to follow through with such procedures as are necessary for the wellbeing of my pet on a continuing basis until further communication with me. I agree to assume financial responsibility for all routine and emergency services rendered.

Your signature below constitutes your acknowledgement that (i) you have read and agreed to the above, (ii) the procedure(s) have been explained to your satisfaction and that you have all the information that you desire, (iii) you have had the chance to ask questions, and (iv) you authorize and consent to the performance of the procedure(s) and to the administration of anesthesia.

## Presurgical Evaluation 1 (less than 3 years) – \$54.50

### THE PRESURGICAL EVALUATION #1 INCLUDES:

1. Packed cell volume (assess anemia)
2. Total serum protein (measurement for dehydration)
3. Blood clotting time
4. Blood glucose (diabetes/hypoglycemia)
5. BUN (kidney evaluation)
6. Urinalysis strip (bladder infection/kidney disease/diabetes)

Yes, I authorize       No, I decline

---

## Presurgical Evaluation 2 (3-6 years) – \$98.00

### THE PRESURGICAL EVALUATION #2 INCLUDES:

1. Complete blood count – (anemia, measures inflammatory cells in the blood, platelet count)
2. Blood clotting time
3. Mini organ chemistry screen –
  - a. Blood glucose (diabetes/hypoglycemia)
  - b. Blood urea nitrogen & creatinine (kidney function)
  - c. ALT, ALP (liver function)
  - d. Total protein, albumin (liver disease, hydration, intestinal disease)
  - e. Potassium (important electrolyte)
4. Complete Urinalysis (bladder infection, kidney function, diabetes screen)

Yes, I authorize       No, I decline

---

## Presurgical Evaluation 3 (7 years or older) – \$187.00

### THE PRESURGICAL EVALUATION #3 INCLUDES:

1. Complete blood count - (anemia, measures inflammatory cells in the blood, platelet count)
2. Blood clotting time
3. Complete Organ Chemistry Screen –
4. Blood glucose (diabetes/hypoglycemia)
5. Blood urea nitrogen & creatinine (kidney function)
6. ALT, ALP, total bilirubin (liver function)
7. Total protein, albumin (liver disease, hydration, intestinal disease)
8. Globulins (inflammation)
9. Amylase (pancreas)
10. Calcium & phosphorus (parathyroid disease, kidney disease)
11. Sodium & potassium (important electrolytes)
12. Complete Urinalysis (bladder infection, kidney function, diabetes screen)

Yes, I authorize       No, I decline

---

## Electrocardiogram – \$72.50

Prior to anesthesia, we recommend an ECG to screen your pet's heart for abnormalities in rate, rhythm, electrical conduction and/or cardiac enlargement. The ECG is transmitted via telephone line to a board certified cardiologist in Gainesville who will give an approval for anesthesia and suggest anesthetic regimens based on the ECG findings.

Yes, I authorize       No, I decline
