

ST. JOHNS VETERINARY HOSPITAL

**PRESURGICAL EVALUATION 1 (LESS THAN 3 YEARS) – \$54.50**

**THE PRESURGICAL EVALUATION #1 INCLUDES:**

1. Packed cell volume (assess anemia)
2. Total serum protein (measurement for dehydration)
3. Blood clotting time
4. Blood glucose (diabetes/hypoglycemia)
5. BUN (kidney evaluation)
6. Urinalysis strip (bladder infection/kidney disease/diabetes)

Yes, I authorize                       No, I decline

---

**PRESURGICAL EVALUATION 2 (3-6 YEARS) – \$98.00**

**THE PRESURGICAL EVALUATION #2 INCLUDES:**

1. Complete blood count – (anemia, measures inflammatory cells in the blood, platelet count)
2. Blood clotting time
3. Mini organ chemistry screen –
  - a. Blood glucose (diabetes/hypoglycemia)
  - b. Blood urea nitrogen & creatinine (kidney function)
  - c. ALT, ALP (liver function)
  - d. Total protein, albumin (liver disease, hydration, intestinal disease)
  - e. Potassium (important electrolyte)
4. Complete Urinalysis (bladder infection, kidney function, diabetes screen)

Yes, I authorize                       No, I decline

---

**PRESURGICAL EVALUATION 3 (7 YEARS OR OLDER) – \$187.00**

**THE PRESURGICAL EVALUATION #3 INCLUDES:**

1. Complete blood count - (anemia, measures inflammatory cells in the blood, platelet count)
2. Blood clotting time
3. Complete Organ Chemistry Screen –
4. Blood glucose (diabetes/hypoglycemia)
5. Blood urea nitrogen & creatinine (kidney function)
6. ALT, ALP, total bilirubin (liver function)
7. Total protein, albumin (liver disease, hydration, intestinal disease)
8. Globulins (inflammation)
9. Amylase (pancreas)
10. Calcium & phosphorus (parathyroid disease, kidney disease)
11. Sodium & potassium (important electrolytes)
12. Complete Urinalysis (bladder infection, kidney function, diabetes screen)

Yes, I authorize                       No, I decline

---

**ELECTROCARDIOGRAM – \$72.50**

Prior to anesthesia, we recommend an ECG to screen your pet's heart for abnormalities in rate, rhythm, electrical conduction and/or cardiac enlargement. The ECG is transmitted via telephone line to a board certified cardiologist in Gainesville who will give an approval for anesthesia and suggest anesthetic regimens based on the ECG findings.

Yes, I authorize an ECG                       No, I decline an ECG
